OMAHA STEAKS®

Why Our Beef IS BETTER

Maximum Tenderness

Your Omaha Steaks are aged at least 21 days, a careful process that creates the most tender steak possible. Then they're flash-frozen to stay that way. The grocery store might try, but they're guessing at your steak's age.

Intense Flavor

The best grain-fed beef is hand selected for quality and marbling...our aging process and flash freezing guarantee great beef flavor in every Omaha Steak. Trust us, you'll recognize it as soon as you take a bite.

True Safety

Guaranteed 100%. You won't find that anywhere else. Omaha Steaks are handled in the cleanest, safest conditions anywhere, and we stand by our work.

Flash Frozen

Freezing beef at home will damage its integrity and make it less juicy! Flash freezing is proven to preserve the flavor and texture of your steak perfectly until the moment you're ready to cook.

PROVEN RESULTS

When one of the country's largest manufacturing companies wanted to recognize and reward employees for achieving 1 million incident-free hours, they asked Omaha Steaks for help.

The Safety Award, which is part of Omaha Steaks custom certificate collection, was the perfect way for the manufacturer to express their gratitude. The certificates were shipped in bulk to their location and were distributed during a celebratory event.
