OUR ECO-RESPONSIBILITIES

With over 80 years of manufacturing experience Replogle maintains a keen awareness of our responsibility to the environment. Replogle would like to share our eco-responsibility success stories.

Lean Manufacturing This philosophy allows Replogle to improve quality but it also enables us to reduce the Carbon Footprint within our factory. It has reduced the amount of energy usage through the reduction of machines and materials transportation.

Paper & Fiber Product Recycling Replogle began allowing outside companies to pick up our excess paper & fiber. Replogle recycles approximately 340 tons of paper and fiber materials per year.

Plastic Recycling Replogle utilizes some post industrial reclaimed plastic in its manufacturing processes. The unused plastic is gathered from the manufacturing line and delivered to our in-house grinding room. There the excess materials are reformed into pellets and redistributed to our machines.

Purchasing The Replogle purchasing department continues to source eco-conscious products for use in our daily production, office administration and maintenance departments. Currently, all of our production 'press-craft' models are made from post-consumer reclaimed paper fiber, making over 75% of our total globe output manufactured from earth friendly material.

See the world in its proper perspective with a globe from Replogle. Contact your local Replogle Globes dealer for details. Please visit www.replogleglobes.com to view over 100 globe styles. For product inquiries you can contact us at:

DIPLOMAT

MODEL #65325 [BLUE]    

MODEL #65225 [ANTIQUE]    

This is the world's most detailed globe, abounding with over 28,000 place names. Most globes list no more than 4,000 locations, but at 32" across, this virtuosic achievement in cartography holds enough detail to spark any geography lover's imagination, from the Scottish county town of Ayr to the Isthmus of Kra in Thailand to Panama's Las Perlas Archipelago. This floor-standing globe becomes a focal point of any library or captain's quarters, grandly cradled in a handcrafted mahogany frame that has been rubbed to a lustrous walnut finish and rolls smoothly on four casters. Requiring more than 40 man hours to complete ball, the hand cut and hand-applied topographic map radiates with its ocean and six color political demarcations even when not illuminated from within by its internal 75-watt bulb. The solid brass meridian has been hand-engraved and calibrated every degree. A touch of the solid brass ring turns the light on and off and adjusts to three brightness levels. The blue globe map contains continental shelf which shows the extended perimeter of each continent and associated coastal plain. Plugs into AC. Hand-made in the United States.

OBELISK FLOOR GLOBE

MODEL #22728 [ANTIQUE]

Frank Lloyd Wright (1867–1959) is widely considered to be America's greatest architect. He amazed the world with his architectural ingenuity and designs. His vision encompassed the buildings and residences he designed as well as their landscaping, art glass, furniture, lighting and floor covering - to create a unified whole. An adaptation of one of Wright's vase designs developed in 1929 for Leerdam Glassfabrik in Germany. The Obelisk stand is made of solid maple and cherry hardwood.

WRIGHT FLOOR GLOBE

MODEL #22712 [ANTIQUE]

This globe stand is an authentic reproduction from a drawing found in the Frank Lloyd Wright Foundation archives. It is an unidentified concept for one of the Prairie Homes that Wright designed in the early 1900's. The only marking on the drawing is in his handwriting and says, "Something like this." The proportions, and interpretation, of the drawing were calculated based on the scale of other drawings from this time period.

MODEL #42816 [SLATE GRAY] 6" 15cm

A smaller version of our Wright Floor Globe is the perfect table or desktop globe for any home or office. The globe stand is an authentic reproduction from a drawing found in the Frank Lloyd Wright Foundation archives. It is an unidentified concept for one of the Prairie Homes that Wright designed in the early 1900's. This globe and stand are proportionately scaled from the large Wright Floor Globe (as shown on page 23).

BARREL FLOOR GLOBE

MODEL #27823 [BRONZE METALLIC]

This globe stand is an adaptation of one of the most universally recognized furniture designs found in the Frank Lloyd Wright Foundation archives. It is a modified version of the famous "Barrel Chair" originally designed by Frank Lloyd Wright in 1903 and modified for his personal use at "Taliesin" in Spring Green, WI and for Herbert F. Johnson for his home "Wingspread" in Racine, WI in 1937.

The Barrel Chair Floor Globe features a 16"/40cm diameter bronze metallic raised-relief globe with beautifully blended earth-tone colors.

■ GLENCOE CONSTELLATION

MODEL #85601

In 1911, Wright created designs for Booth Park in Glencoe, Illinois. The design of the Glencoe Constellation Globe stand is adapted from a large brick pedestal designed for the park. The stand combines walnut color stained hardwood with die-cast top and bottom plates. This illuminated globe shows stars, constellations, and nebulae when not lit. Turn the light on and witness the luminous beauty of approximately 70 celestial images.

■ BETH SHOLOM

MODEL #85376 [ANTIQUE]

In 1954, Frank Lloyd Wright began work on the pyramidal shaped Beth Shalom Synagogue in Elkins Park, PA, now a registered National Historic Landmark open to the general public. This table top globe and stand were adapted from one of Wright's designs for a hexagonal walnut and copper planter in the building.

12"W x 12"D x 16"H

■ HEXAGON

MODEL #31821 [ANTIQUE]

Frank Lloyd Wright's overall concept for his buildings included the integration of the interior furnishings. In 1952, he developed a series of hexagonal metal chairs, tables and other furniture for the H. C. Price Tower in Bartlesville, OK that coordinated with the geometric shape of the building. Adapted from the hexagonal hassock design, this globe stand exemplifies the three Organic Elements used by Wright throughout his lifetime. The metal base is triangular, the wood globe support is hexagonal, and the globe is circular.

20"W x 20"D x 20"H

■ USONIAN I

MODEL #37538
[BRONZE METALLIC]

The base for the Usonian I Desk Globe was adapted from one of several furniture designs created by Wright during his Usonian period, spanning from the late 1930's to the latter part of his career. A concept drawing for an ottoman was the source for this base design. The globe features a solid hardwood base and copper-plated semi-meridian.

12"W x 12"D x 18"H

■ HEXHEDRA

MODEL #37539
[BRONZE METALLIC]

An adaptation of a hassock designed by Wright for the Malcolm Willey House (1933) in Minneapolis, MN. Hexhedra Globe features solid hardwood base and copper plated semi-meridian.

12"W x 12"D x 17.3"H

■ SAN MARCOS

MODEL #31819 [ANTIQUE]

In 1928, Frank Lloyd Wright began creating drawings for the San Marcos in the Desert Hotel that was to be located in Chandler, AZ. The project was never completed due to the 1929 stock market crash, but the building design and the interior renderings contain a variety of interesting furniture and decorative features. The composition of this globe stand is adapted from the 60 degree angle legs and hexagonal top of a small accent table designed for the Dining Pavilion which was to be bordered by garden terraces of the San Marcos in the Desert Hotel.
