We don't just carry things. Sure, the 'things' in our backpacks, business bags and luggage are often inanimate objects but they are so much more than just things. We carry tools. We carry hopes. Dreams. Inspirations and ambitions. People use Samsonite to carry their world around with them as they go about conquering it. That's what we carry.

Objectives? There's plenty of room for those in our backpacks and business bags. Experiences? You're going to need a suitcase or two for that collection. We carry ways for people to connect and stay connected to all the things they love and need. We carry ways for people to get to the places they need to go—in life and their careers. So no, we don't just carry things. We carry the world.

WE CARRY THE WORLD

MVS SPINNER BACKPACK

The MVS Spinner Backpack is a revolutionary new product that combines the grab and go functionality of a wheeled backpack with the ease of four wheel, upright rolling of Spinner luggage. This product has many intuitive design features like a quick change back panel, stealth water bottle pockets and a laptop compartment that compliment its multi-tasking nature.

TOTE-A-TON

Constructed of durable, high-quality 420 Denier nylon, the Tote-A-Ton duffel has an endless number of uses. This lightweight bag weighs only one pound when empty, yet provides a colossal 6,452 cubic inches of packing or storage space. The Tote-A-Ton works great for students going off to camp or college, for traveling by car, or as a storage bag. Its mammoth size can easily accommodate oversized or irregularly-shaped items. When not in use, the Tote-A-Ton folds up and stows away easily, making it a great solution in dorms and other tight places.

ECO-GLIDE™

A BAG THE EARTH WILL LOVE ALMOST AS MUCH AS YOU WILL. To buy a product that is good for the earth shouldn't cost an earthly sum. And the product should be something that not only lives up to your expectations but exceeds them. That's what Samsonite believes. That's what ECO-Glide is. A bag that's designed to be lighter. That has better pockets with better zippers. Better compartments with better expansion. A bag with fabric made from 100% post-consumer recycled plastic bottles that lightens the earth and allows you to walk more softly across it. Lightening your footprint – wherever those footprints lead. This is ECO-Glide.

Lite-Shock
Incredibly Light, **Unbelievably Tough**

LITE-SHOCK

Lite-Shock, our lightest CURV® collection, combines minimal weight with maximum impact resistance. The shell design draws its inspiration from nature and is based on the ripple-effect caused by dropping a stone in water. Its self-reinforced, shock-absorbing design (patented) gives extra strength to the case, especially in the corners which are strengthened by the continuing lines, thus allowing less material for more strength.

COSMOLITE 3.0

Staying true to the great many stories that are intrinsically woven into Cosmolite's design DNA, Samsonite has reinvented this CURV® classic by including the latest technologies and design aesthetics. Evolved but unchanged, the new Cosmolite has retained its iconic silhouette but is now lighter than before thanks to the use of more elegant and lightweight components. This all comes with an updated fashionable color pallet that is strengthened by the color-matching components and subtle reference to the elegant shell pattern.
