TOTE-A-TON™

Constructed of durable, high-quality 420 Denier nylon, the Tote-A-Ton duffel has an endless number of uses. This lightweight bag weighs only one pound when empty, yet provides a colossal 6,452 cubic inches of packing or storage space. The Tote-A-Ton works great for students going off to camp or college, for traveling by car, or as a storage bag. Its mammoth size can easily accommodate oversized or irregularly-shaped items. When not in use, the Tote-A-Ton folds up and stows away easily, making it a great solution in dorms and other tight places.

TRU-FRAME

Samsonite proudly presents Tru-Frame, a brand new hard-shell framed luggage collection. The look of Tru-Frame emphasizes modern design inspired from the digital and cyber world. The aluminum, multi-stop trolley system and soft-touch carry handle have been specially designed in the same colors as the cases, for a harmonious look. The use of a lightweight microframe, merged seamlessly with case design offers high security with double recessed locks. Tru-Frame succeeds in combining security, optimized volume, and strength, thanks to the self-reinforced boxy design made of 100% polycarbonate material.

WINFIELD™ 2 FASHION

Transport your travel essentials effortlessly and stylishly in Winfield 2 Fashion. This extremely lightweight and durable Spinner collection features 100% polycarbonate construction with sharp, molded details. Winfield 2 Fashion is made to absorb impact by flexing while under stress and popping back to its original shape, which eliminates dents and dings while protecting its contents. An elegant, brushed pattern hides any potential scratches or scuffs from your journeys. Spinners boast a spacious, divided and fully-lined interior. 24" and 28" Spinners expand for added packing capacity. All sizes include a mounted TSA combination lock for security and peace of mind.

Lite-Shock
Incredibly Light, **Unbelievably Tough**

LITE-SHOCK

Lite-Shock, our lightest CURV® collection, combines minimal weight with maximum impact resistance. The shell design draws its inspiration from nature and is based on the ripple-effect caused by dropping a stone in water. Its self-reinforced, shock-absorbing design (patented) gives extra strength to the case, especially in the corners which are strengthened by the continuing lines, thus allowing less material for more strength.

COSMOLITE 3.0

Staying true to the great many stories that are intrinsically woven into Cosmolite's design DNA, Samsonite has reinvented this CURV® classic by including the latest technologies and design aesthetics. Evolved but unchanged, the new Cosmolite has retained its iconic silhouette but is now lighter than before thanks to the use of more elegant and lightweight components. This all comes with an updated fashionable colour pallet that is strengthened by the colour matching components and subtle reference to the elegant shell pattern.
